

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (previously presented): A patient education system for educating a user in performing intermittent male catheterization, said system comprising:

a male catheterization system including:

- (a) a plurality of gloves;
- (b) a collection basin;
- (c) a plurality of disposable wipes
- (d) a plurality of protective underpads;
- (e) a plurality of male catheters;
- (f) lubricant gel;
- (g) a plurality of clean catheter bags;
- (h) a used catheter bag;
- (i) a urine record card;
- (j) a lubricating gel tube;
- (k) step-by-step instructions for using items (a) to (j);
- (l) a container wherein items (a) through (j) are positioned inside the

container; and

self-care documentation an instructor uses to educate the user in performing intermittent male catheterization using the system.

Claim 2 (previously presented): The patient education system of Claim 1, wherein the self-care documentation includes at least one acknowledgement section for documenting instructions provided to the users.

Claim 3 (currently amended): A An intermittent male catheterization system, said system comprising:

a plurality of infection prevention devices said infection prevention devices includes at least two gloves, at least one disposable wipe, at least one bag, alcohol gel, and a protective underpad;

at least one male catheterization device;

at least one recording device including a collection basin and a record card which enables a user to record an amount of drainage from a male catheter site;

at least one set of step-by-step instructions for using the infection prevention devices, male catheterization device and recording device; ~~and~~

self-care documentation including an acknowledgement section for documenting instructions provided to the user in the use of the system; and

a container for holding the system.

Claims 4 to 6 (cancelled).

Claim 7 (previously presented): An intermittent male catheterization system for use by a user and containing apparatus for a plurality of male catheter insertions, said system comprising:

- (a) a plurality of gloves;
- (b) a collection basin;
- (c) a plurality of disposable wipes
- (d) a plurality of protective underpads;
- (e) a plurality of male catheters;
- (f) a lubricant gel;
- (g) a plurality of clean catheter bags;
- (h) a used catheter bag;
- (i) a urine record card;
- (j) a lubricating gel tube;
- (k) a set of step-by-step instructions for using items (a) to (j); and
- (l) a container wherein items (a) through (j) are positioned inside the

container.

Claim 8 (previously presented): The system of Claim 7, which includes self-care documentation for documenting instructions provided to the user in the use of the system.

Claim 9 (new): A patient education system for educating a user in performing intermittent male catheterization, said system comprising:

a male catheterization system including:

- (a) a collection basin;
- (b) a plurality of disposable wipes
- (c) a plurality of male catheters;
- (d) lubricant gel;
- (e) a plurality of clean catheter bags;
- (f) a used catheter bag;
- (g) a urine record card;
- (h) a lubricating gel tube;
- (i) step-by-step instructions for using items (a) to (h);
- (j) a container wherein items (a) through (h) are positioned inside the

container; and

self-care documentation an instructor uses to educate the user in performing intermittent male catheterization using the system.

Claim 10 (new): The patient education system of Claim 9, wherein the self-care documentation includes at least one acknowledgement section for documenting instructions provided to the users.

Claim 11 (new): A intermittent male catheterization system, said system comprising:

a plurality of infection prevention devices said infection prevention devices includes at least one disposable wipe, at least one male catheter bag, and alcohol gel;  
at least one male catheterization device;  
at least one recording device including a collection basin and a record card which enables a user to record an amount of drainage from a male catheter site;  
at least one set of step-by-step instructions for using the infection prevention devices, male catheterization device and recording device; and  
self-care documentation including an acknowledgement section for documenting instructions provided to the user in the use of the system.

Claim 12 (new): An intermittent male catheterization system for use by a user and containing apparatus for a plurality of male catheter insertions, said system comprising:

- (a) a collection basin;
- (b) a plurality of disposable wipes
- (c) a plurality of male catheters;
- (d) a lubricant gel;
- (e) a plurality of clean catheter bags;
- (f) a used catheter bag;
- (g) a urine record card;
- (h) a lubricating gel tube;
- (i) a set of step-by-step instructions for using items (a) to (h); and
- (j) a container wherein items (a) through (h) are positioned inside the container.

Claim 13 (new): The system of Claim 12, which includes self-care documentation for documenting instructions provided to the user in the use of the system.
